

Beginning March 12, contractor construction crews will be working at the FM 989 and Gibson Lane/Arrington Road intersection. Work will include removing the intersection flashing beacon lights at the FM 989 and Gibson Lane/Arrington Road intersection. Traffic movements will not be changed by removal of the flashing beacons. FM 989 traffic will continue through the intersection without stopping. Stop signs will remain in place at Gibson Lane and Arrington Road and traffic will continue to stop on Gibson Lane and Arrington Road before proceeding through the intersection. At times, traffic patterns will be temporary shifted to allow workers to complete necessary work in the intersection.

Work continues along the North Frontage Road (Hampton Road) between FM 989 and FM 2148 that requires traffic to be limited to one-lane, one-way operations controlled by flaggers and/or yield conditions.

Travelers in this area are advised to watch for road crews, expect delays and plan their commutes in advance while the work progresses. This work is subject to weather conditions and other unforeseen circumstances.

This traffic move does not affect the current I-30 mainlane traffic configurations.

Motorists can check traffic updates by visiting www.drivetexas.org.

Follow TxDOT's Atlanta District on Facebook @TxDOTAtlantaTX, Instagram @txdotatlanta, X @TxDOTAtlanta and Nextdoor.

TxDOT will do our best to keep you updated and informed when there are major changes in the traffic patterns during construction.

Please do your part to help TxDOT keep the traveling public safe by watching for changes in traffic patterns and giving 100% of your attention to driving, the task at hand. Encourage your friends and family to do the same.

Drive safely out there!
