

Nightly, beginning October 9, 2023, 8 PM until 6 AM, the contractor will be working to do pavement repairs on the existing eastbound and westbound traffic lanes. This work requires restricting mainlane traffic to one lane while work is performed and is scheduled to be done primarily at night from 8 PM until 6 AM. The work is estimated to take approximately 4 weeks. Inclement weather or other unforeseen issues could cause delays or changes in work schedule.

Other daytime work in the median section behind the concrete traffic barrier continues.

TxDOT reminds local commuters that the I-30 Frontage Road system allows traffic to travel eastbound from FM 989/Kings Highway to US 71/Stateline and westbound from US 71/Stateline to FM 989/Kings Highway, continuously, without ever stopping at a traffic signal.

Motorists can check traffic updates by visiting www.drivetexas.org.

The following is a link to TxDOT's general I-30 Corridor Public Information page:

<https://www.txdot.gov/inside-txdot/projects/studies/atlanta/i-30-corridor-bowie-county.html>

The following is a link to the I-30 Widening Project (the project currently under construction) Public Information page:

<https://www.txdot.gov/inside-txdot/projects/studies/atlanta/i-30-widening-project-4-lane-to-6-lane.html>

We will do our best to keep you updated and informed when there are major changes in the traffic patterns during construction.

Please do your part to keep the traveling public and project workers safe by slowing down and giving 100% of your attention to driving- the task at hand. Encourage your friends and family to do the same.

Drive safely out there!
